Purchaser:

Rembrandt U120, a muscular son of R48, from a young donor cow with cow making appeal. Jaal J2, pedigree is littered with elite donors notably G665 and B48, reason enough to use this sire extensively the bar-M program. Coupled with the D171 cowline, bar-M's most prolific breeding matron the result is one of consistency and cowmaking ability. Suitable for cows and heifers. This sire had a tremendously tough start to life, being reared on a contract breeders property. Calves were weaned 90kg lighter as an average over the contemporary group compared to Bar M reared embryo calves.

Purchaser:

Pheasantry U118, a Pheasantry out of Q904 a next generation donor with a big future. Suitable cows and heifers. This sire had a tremendously tough start to life, being reared on a contract breeders property. Calves were weaned 90kg lighter as an average over the contemporary group compared to Bar M reared embryo calves.
